TRANSPORTATION  
CONSTRUCTION  
COALITION  
FLY-IN

HIGHWAY TRUST FUND - STILL UNDER CONSTRUCTION

MAY 10-11, 2016

HYATT REGENCY WASHINGTON  
WASHINGTON, DC

## Dear Past TCC Legislative Fly-In Attendee:

The enactment of the five-year “Fixing America’s Surface Transportation Act”, or FAST Act, in late 2015 was the product of years of work by the transportation construction industry to pressure members of Congress – whether they were at home or in Washington, DC – to deliver a multi-year reauthorization of the federal surface transportation programs. The annual Transportation Construction Coalition (TCC) Legislative Fly-In has, and will continue to be, a foundational component of our industry’s advocacy efforts.

While the FAST Act temporarily stabilized highway and public transportation investment, it failed to address the root cause of the uncertainty that has plagued the federal programs since 2008 – the Highway Trust Fund’s structural revenue deficit. Without proactive steps by Congress, states in a few short years will once again be faced with the prospect of no new federal funds or a delay in already promised reimbursements.

In addition to fixing the Highway Trust Fund once and for all, it is imperative that members of Congress hear about the need to ensure the FAST Act is fully funded. Less than two weeks after the new surface transportation law was enacted, a government-wide spending bill that set annual funding levels for the current year shorted the FAST Act’s transit capital investments by more the \$100 million.

Lastly, a short-term extension of the federal aviation programs expires at the end of March and Congress is working on a multi-year aviation reauthorization bill. Federal airport infrastructure investment is a nearly \$3.5 billion per year market. Boosting these investments is a key TCC priority as is raising the Passenger Facility Charge (PFC) cap to provide larger airports the opportunity to augment the \$2 billion per year in PFC revenue currently generated for needed capital improvements.

The 15th Annual Transportation Construction Coalition Legislative Fly-In will build on the momentum of the FAST Act’s enactment. **Join your industry allies in Washington, DC, on May 10-11, to thank your members of Congress for their support of the FAST Act and to make sure they know the job is not done.**

You will get the latest on the 2016 electoral landscape from a nationally renowned political expert, hear updates on current congressional activities, and receive educational briefing packets for you to deliver to your congressional delegation on key industry priorities. The Fly-In’s reception will also provide you an opportunity to network with your industry peers and members of Congress and their staff.

**The transportation construction industry cannot afford to take our foot off the gas and risk allowing the return of Highway Trust Fund revenue shortfalls that disrupt state transportation programs and your business.**

Join hundreds of other industry leaders in delivering our message to Capitol Hill May 10-11 in Washington DC. Registration instructions will be sent via email shortly. Thank you for your past support and we look forward to seeing you in May.

## EVENT SCHEDULE

### TUESDAY MAY 10

2:30 PM to 5:00 PM | Legislative Briefing

6:00 PM | Capitol Hill Reception

### WEDNESDAY MAY 11

7:00 AM to 8:00 AM | TCC Breakfast
