

BETTER HIGHWAYS FOR AMERICA

Join the Association of Equipment Manufacturers (AEM) as we partner with industry representatives in pursuit of improving our nation's highways and infrastructure. Through I Make America, AEM is offering members and the hardworking men and women of our nation's construction industry an opportunity to come together in support of a new highway bill.

NOW'S THE TIME TO TAKE ACTION ON THE HIGHWAY BILL

The U.S. infrastructure system ranks only 23rd globally and we are rapidly falling behind. Two critical transportation issues touch Congress this year: the current highway bill expires at the end of September and the Highway Trust Fund is expected to run out of funds as early as July.

Let's rally to pass the highway bill. Why?

- To help American businesses be competitive in the global marketplace
- To support the purchase of goods and services we've come to rely on in our daily lives
- To help our economy grow and prosper
